and join the professionals

Start your journey into professional project management within days as we provide self study materials allowing you to prepare for the exciting training ahead.

Self Study (approx 4 to 6 weeks)

This self study module introduces foundation Project Management concepts. These study materials allow you to fit your learning around your life, so you can train anywhere, anytime.

By providing an intensive course, time to reflect on what you have learnt and a follow up exam preparation workshop REDTRAY Academy gives you the best chance of passing your exam first time.

PRINCE2® Foundation Course (3 days)

A three day course where you will gain an understanding of defining a project, its scope and life cycle. Task scheduling and identification of resource requirements are covered along with risk management and methods for project control. Softer elements of project management are also considered, such as stakeholder management and teambuilding.

PRINCE2® Foundation Exam

Assimilate knowledge from the course and practice passing the exam.

We help you advance your career by providing support during the CV and interview preparation stage.

Start applying for Jobs

We cannot guarantee you a job because the job interview is between you and the potential employer so REDTRAY Academy cannot influence an employer's final decision. However, we can help you organise your CV, approach job boards and websites which have jobs advertised specifically requiring your certification. Furthermore, we will connect you with our partners that specialise in the job placement and recruitment industry, increasing your opportunities to enhance your career.

After a few months of experiencing project management in the workplace you will be ready to sit the PRINCE2 Practitioner exam and become a qualified Project Manager

PRINCE2® Practitioner Course (2 days)

A two day face to face classroom course preparing you for the PRINCE2® Practitioner exam.

PRINCE2® Practitioner Exam
